**WDO – Wall Windows**

	26" x 30"	<b>WDO 2630 S</b> \$ 330	<b>WDO 2630 E</b> \$ 660	Provides plenty of visibility for applications which require that the user stand inside the WhisperRoom.
	26" x 36"	<b>WDO 2636 S</b> \$ 365	<b>WDO 2636 E</b> \$ 730	For applications which require visibility while the user sits, a WDO 2636 is recommended.
	26" x 42"	<b>WDO 2642 S</b> \$ 415	<b>WDO 2642 E</b> \$ 830	If an interior desk or table is to be used beneath the window, a WDO 2642 will allow the necessary visibility.
	26" x 48"	<b>WDO 2648 S</b> \$ 485	<b>WDO 2648 E</b> \$ 970	The WDO 2648 provides the most visibility.

A wall window can be factory installed in any 40" wide wall component. Other than size, the design is the same as that of a door window. Each glass unit consists of multiple layers of 1/4" laminated safety glass separated by an air buffer(s). Safety glass is used because of its superior noise reduction capabilities, and its safety features. If broken, it will not shatter. Installation of a window does not reduce the noise reduction capability of a WhisperRoom. It does, however, increase the amount of interior reflective surface area. Also, an additional cable passage plug is located at the base of each window component.

**NOTE: Must be specified at initial order.**

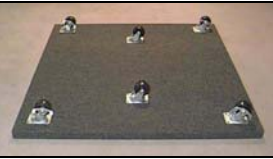

### AJP 2636 – Audio Jack Panels

	<u>Standard</u> <b>AJP 2636-6 S</b> \$ 695	<u>Enhanced</u> <b>AJP 2636-6 E</b> \$1,115	The Audio Jack Panel is a 40" wall component with a prewired, jack panel insert consisting 4 or 8, 1/4" stereo phono jacks and 2 RCA connectors. The AJP feature comes with a 26" x 36" window above and a 2" cable passage below the Jack Panel. Panel is available with 6 or 10 jacks. This feature is great for audiometric applications.  <b>NOTE: Must be specified at initial order. This feature is available for all models <u>except</u> MDL 4230.</b>
	<b>AJP 2636-10 S</b> \$ 800	<b>AJP 2636-10 E</b> \$1,220	

### XLR 2636 – XLR Panel

	<u>Standard</u> <b>XLR 2636-8 S</b> \$ 800	<u>Enhanced</u> <b>XLR 2636-8 E</b> \$1,220	The XLR Panel is a 40" wall component with a prewired, XLR panel insert consisting 4 XLR jacks and 4, 1/4" stereo phono jacks. The XLR feature comes with a 26" x 36" window above and a 2" cable passage below the panel. This feature is great for recording, mixing and mastering applications.  <b>NOTE: Must be specified at initial order. This feature is available for all models <u>except</u> MDL 4230.</b>
--	--	---	---

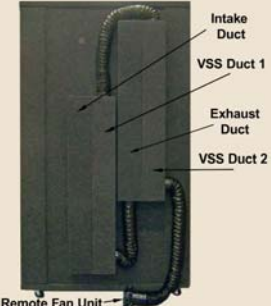

### CP - Caster Plate

	The Caster Plate is an additional floor component with wheels to aid in the mobility of a WhisperRoom. The caster plate also provides a substantial amount of downward noise control. It adds additional mass in the downward direction and provides a 4" air buffer below the WhisperRoom. This feature is highly recommended for applications where low-end, structurally transmitted noise is a problem.  <b>NOTE: This option adds five (5) inches to the overall height of a unit and may be purchased at any time. However, for ease of assembly, it is recommended to purchase during initial order.</b>
---	---

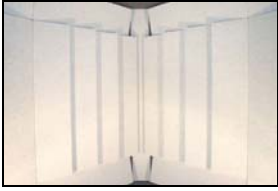

### IEP Floor – Isolation Enhancement Package Floor

	The IEP floor is a 5/16" duracoustic mat made of recycled rubber that is included in the Enhanced models or IEP upgrades. It is installed on the floor underneath the WhisperRoom floor and provides additional isolation. The IEP floor can be purchased for Standard rooms also and is recommended if there is a possibility of upgrading to an Enhanced model at any point in time.
--	--

### VSS – Ventilation Silencing System

	Standard WhisperRoom ventilation systems are quiet. However, the fan noise is still slightly audible inside the WhisperRoom. This noise can be eliminated by the installation of a VSS. The number of VSS units needed depends on the size of the WhisperRoom and the prices listed are for the specific model noted. One VSS is required for each standard ventilation system. Each VSS consists of two additional baffled exhaust ducts, with hoses and adapters, linked in-line between the standard exhaust duct and the remote fan unit (RFU).  <b>NOTE: May be ordered and installed at any time. Ceiling-mount ventilation systems and VSS systems available for most models.</b>
--	--

### SDS – Soundwave Deflection System

The Soundwave Deflection System (SDS) is available for the interior of all SE 2000 Series WhisperRooms (except LP 127). Primarily designed to control soundwave reflections and prevent resonant frequencies, the SDS also presents a very attractive and professional appearance. By attaching a series of deflector panels to two perpendicular interior wall surfaces, parallel walls are converted to non-parallel. SDS panels attach with Velcro® and can be re-configured as many times as necessary.

**NOTE:** *May be ordered and installed at any time. Not required for the LP model.*

### EFS – Exterior Fan Silencer

WhisperRoom remote fan units have a 38dB noise rating. This slight noise can be eliminated by positioning each fan into an Exterior Fan Silencer (EFS). The number of EFS units needed depends on the size of the WhisperRoom and the number of ventilation systems required.

**NOTE:** *May be ordered and installed at any time.*

### HX – 10” Height Extension

WhisperRooms are designed to permit installation in residences and facilities with standard ceiling heights (approximately 8’). However, when additional height is required for equipment or application-specific needs, a 10” height extension upgrade is available.

**NOTE:** *Prior to placing your order you should ensure that the host room ceiling height will permit the installation of the Height Extension. Must be specified at initial order.*

### EAP – Exterior Accent Package

The EAP is a series of beautiful, wood grain, accent panels inlaid into the exterior of WhisperRoom wall components. It is a cosmetic upgrade only and does not change the overall design or noise reduction capability of the WhisperRoom.

**NOTE:** *Must be specified at initial order.*

### WA – Wide-Access Door

Standard  
\$ 410

Enhanced  
\$ 755

RAMP SYS  
\$ 265

Any WhisperRoom with a 5’ wall or larger can be configured with an ADA compliant Wide-Access Door upgrade. This upgrade is perfect for applications which require the passage of large items into and out of the WhisperRoom. Also, a ramp system is available for wheelchair access. Wide Access doors include a 16” x 48” window.

**NOTE:** *Must be specified at initial order.*

<b>Acoustical Foam</b>		<b>Auralex</b> <small>acoustics</small>		
	<b>FOAM 2</b> \$ 75	<b>FOAM 3</b> \$ 115	<b>FOAM 4</b> \$ 150	Purchase additional boxes of foam. Each sheet is 2' x 4' and 2" thick and each box contains the indicated number of sheets.
For those applications where more acoustical foam is needed. Use as much or as little as you like, wherever you want, to customize the interior to suit your needs. Foam sheets attach to the interior with Velcro®.				
<i>NOTE: May be purchased at any time. Available colors are gray and burgundy.</i>				

<b>IEP – Isolation Enhancement Package</b>		
<b>Item#</b>	<b>Converts STANDARD (Single-wall) to ENHANCED (Double-Wall)</b>	<b>Price</b>

IEP 8484	MDL 8484S + IEP 8484 = 8484E	\$ 5,660
IEP 84102	MDL 84102S + IEP 84102 = 84102E	\$ 6,710
IEP 84126	MDL 84126S + IEP 84126 = 84126E	\$ 7,295
IEP 10284	MDL 10284S + IEP 10284 = 10284E	\$ 6,695
IEP 102102	MDL 102102S + IEP 102102 = 102102E	\$ 7,970
IEP 102126	MDL 102126S + IEP 102126 = 102126E	\$ 8,620
IEP 102144	MDL 102144S + IEP 102144 = 102144E	\$ 9,895
IEP 102168	MDL 102168S + IEP 102168 = 102168E	\$ 10,495
IEP 102186	MDL102186S + IEP 102186 = 102186E	\$ 11,765
Some applications or locations may require a much greater level of noise reduction than what is offered by a Standard, single-wall WhisperRoom. To accommodate this, Standard units have been preconfigured to allow for the installation of a full set of secondary isolation components. The IEP upgrade is installed on the inside and will decrease the interior space by 6.5" in both dimensions (not including the interior foam).		
<i>NOTE: May be ordered and installed at any time.</i>		

*Models 6060 (5' x 5') and larger are expandable in the second dimension by the addition of a model-specific, Expansion Package. For information and pricing on our Expansion Packages (EXP) please contact a Product Representative.*
