## **WhisperRoom™, Inc. Takes Center Stage in Music City U.S.A.**

**February 2010** - WhisperRoom™, Inc. the leader in portable/modular sound isolation technology is celebrating its 20<sup>th</sup> anniversary in Music City U.S.A. Nashville's AES (Audio Engineering Society) division is hosting the 2010 Nashville Recording Workshop and Expo on March 5<sup>th</sup> – 6<sup>th</sup> at Belmont University's Curb Event Center. A WhisperRoom will be showcased on stage as the demo booth for various workshops such as Vocal Miking, Capturing EGTR and Bass and more. Attendees can also get more information from WhisperRoom Representatives at their booth on the exhibit floor.

A simple and original concept derived from the desire to play a saxophone in an apartment without disturbing neighbors, resulted in the first WhisperRoom. Now, 20 years later, WhisperRooms dot the worldwide landscape of recording, broadcast, and television studios, universities and high schools, government facilities, audiologist offices, manufacturing and manufacturing testing facilities and home studios. The diversity of the WhisperRoom allows it to be utilized for a variety of applications such as vocal/voiceover and foley recording, animation and gaming development, audio mixing, instrument recording and practice, hearing test and equipment vibration/sound testing.

"We are excited to participate in this show because the music and recording industry is WhisperRoom, Inc.'s largest market. Nashville has a huge concentration of musicians, recording artists and audio engineers in search of a quiet space to practice, record, broadcast or mix." says Debbie Sweany, Director of Sales and Marketing.

WhisperRoom™, Inc. offers 20 sizes and two levels of sound isolation, a Standard (single wall) and an Enhanced (double wall) and a host of optional features. Sizes range from a modest 3.5' x 2.5' one-person unit to a room-size 8.5' x 15.5' unit. Educational discounts, monthly specials and GSA pricing are available as well as immediate world-wide shipping.
