WhisperRoom™, Inc. Celebrates 20 Years of Reducing Sound to a Whisper!

January 2010 - WhisperRoom™, Inc. celebrates 20 years of manufacturing premier portable/modular, sound isolation booths for a variety of applications, both commercial and residential. A simple and original concept derived from the desire to play a saxophone in an apartment without disturbing neighbors, resulted in the first WhisperRoom.

Now, 20 years later, WhisperRooms dot the worldwide landscape of recording, broadcast, and television studios, universities and high schools, government facilities, audiologist offices, manufacturing and manufacturing testing facilities as well as home studios. The diversity of the WhisperRoom allows it to be utilized for a variety of applications from vocal, voiceover and foley recording, audiology testing and audio mixing, instrument recording and practice to vibration/sound testing in a manufacturing setting.

WhisperRoom™, Inc.'s success can be attributed to the quality of product, knowledgeable staff and client satisfaction. "We want to provide a solution not just make a sale," says Debbie Sweany, Director of Sales and Marketing. This philosophy has been key to the company's growth and has produced a prominent list of repeat clients such as NBC, NPR, Walt Disney Entertainment, MTV, Telemundo, to name a few, and a host of universities, recording studios, government facilities and home studios. Sweany adds, "We will continue to stay current with industry markets and provide products as necessary to accommodate our clients' needs."

WhisperRoom™, Inc. offers 20 sizes and two levels of sound isolation, a Standard (single wall) and an Enhanced (double wall). All models are upgradeable from a Standard to an Enhanced at any time, in order to accommodate client's ever-changing needs. Sizes range from a modest 3.5' x 2.5' one-person unit to a room-size 8.5' x 15.5' unit. WhisperRoom™, Inc. offers a host of application-specific optional features as well. Educational discounts, monthly specials and GSA pricing are available as well as immediate world-wide shipping.

WhisperRoom™, Inc. . . . Reducing Sound to a Whisper Since 1990! For more information visit the website at www.whisperroom.com or call 423-585-5827.
