

## **WhisperRoom™, Inc. to Debut XLR Jack Panel at 2010 Government Video Expo in D.C.**

Celebrating over 20 years of providing superior and affordable sound isolation enclosures, WhisperRoom is excited to exhibit again at the Government Video Expo in Washington D.C.! WhisperRoom™, Inc., the leader in sound isolation technology, manufactures sound isolation booths for the recording, broadcasting and voiceover industries, as well as various pre and post production applications. "With hundreds of government users all over the world, WhisperRoom has a long-standing relationship with federal and local government entities. We have been a GSA contractor for the past eight years, so the Government Video Expo is a natural fit for us," says Debbie Sweany, Director of Sales.

WhisperRoom™, Inc. will be debuting an XLR Jack Panel prototype catered to audio engineering applications. The XLR panel will allow audio professionals to conveniently plug in DAWs, instruments, mics and other equipment. The XLR option would be a 40" wall component with a prewired insert. There is a 26" x 36" wall window above the panel for optimum visibility, as well as a cable passage for situations where additional cables need to be utilized. The XLR panel option will be available for all models except the MDL 4230 (3.5' x 2.5').

WhisperRoom™, Inc. offers 20 sizes and two levels of sound isolation, a Standard (single wall) and an Enhanced (double wall). All models are upgradeable from a Standard to an Enhanced at any time, in order to accommodate clients' ever-changing needs. Sizes range from a modest 3.5' x 2.5' one-person unit to a room-size 8.5' x 15.5' unit. Most models are also expandable in length in various increments depending on the model. Whether you're a television network, radio station, university, government agency, or home recording studio, there is a WhisperRoom that's perfect for you.

Included with all WhisperRooms are basic ventilation systems with a remote switch, a door window, Auralex® acoustic foam sheets, interior duct covers, two cable passages and an interior light(s). Also available are a variety of optional features including Wall Windows, Audio Jack Panels, Caster Plates, Wide-Access doors and many more.

WhisperRoom™, Inc. offers a 5-year manufacturer's warranty, the best in the industry! In most cases, WhisperRoom orders ship within 24-48 hours from purchase. Educational discounts, monthly specials and GSA pricing are available. For more information about WhisperRoom visit the website at [www.whisperroom.com](http://www.whisperroom.com).
