

WhisperRoom™, Inc. to Exhibit at International Hearing Society Convention

WhisperRoom™, Inc., the leader in sound isolation technology, will be exhibiting at the 59th Annual IHS (International Hearing Society) Convention and Expo, September 29 – Oct. 2 in Orlando, FL. “We have seen a substantial growth of audiometric applications utilizing WhisperRooms and we are excited to participate in this show.” says Debbie Sweany, Director of Sales.

The WhisperRoom’s inherent sound reduction capabilities and flexibility make it a perfect solution for audiometric, hearing aid, and speech/language testing. The WhisperRoom is a portable, modular sound booth which provides the necessary attenuation to ensure accurate test data, and is a more economical choice over a large, permanent, steel structure.

WhisperRoom™, Inc. recently introduced Audio Jack Panels (AJP) to their product line to meet the high demand in these markets. The AJP is a 40” wall component with a prewired, insert available with 6 or 10 jacks. The 6-jack panel insert has 4 - ¼” stereo phono jacks and 2 RCA connectors; while the 10-jack panel insert has 8 - ¼” stereo phono jacks and 2 RCA connectors. There is a 26” x 36” wall window above the jack panel for optimum visibility for testing purposes. There is also a 2” cable passage below the AJP for situations where additional cables need to be utilized. The AJP option is available for all models except the MDL 4230 (3.5’ x 2.5’).

WhisperRoom™, Inc. offers 20 sizes and two levels of sound isolation, a Standard (single wall) and an Enhanced (double wall). All models are upgradeable from a Standard to an Enhanced at any time, in order to accommodate clients’ ever-changing needs. Sizes range from a modest 3.5’ x 2.5’ one-person unit to a room-size 8.5’ x 15.5’ unit. Most models are also expandable in the second dimension in various increments depending on the model.

Included with all WhisperRooms are basic ventilation systems with a remote switch, a door window, Auralex® acoustic foam sheets, cable passages and an interior light. There is a host of optional features available such as a wide-access door, caster plate, additional wall windows, and more.

WhisperRooms can usually ship within 48 hours of purchase and offer a 5-year manufacturer’s warranty, the best in the industry. Educational discounts, monthly specials and GSA pricing are available.

Reducing sound to a Whisper since 1990!
